85c to \$1.25 Best Make

A special purchase of a great quantity of these Silks is alone responsible for this very conservative price.

As a whole, they have no short-comings whatever, and are without exception in colorings and patterns that are the most desirable and widely sought after that the season has produced.

Full lengths, standard weights, 23 inches wide-principally in standard 85c values, with a goodly percentage that should ordinarily fetch \$1.25 the yard.

You may regard these as the best Silk values of the 69°_{yd}

Dainty New Comers In WASHABLE FROCKS

We've never experienced a season wherein so much care and painstaking attention has been given to dresses that can be washed. Not only are the styles distinctive and beautiful, but the fabrics so unusually attractive that they form a combination which is eminently satisfying.

Crepes, Rice Cloths, Gauzes, Zephyrs, in solid colors, corded, barred and checked effects and in the daintiest and most effective Dolly Varden and Kate Greenway figurings that could be well

These start with dainty Striped Zephyr Ginghams, well made and very tastefully trimmed—blues, pinks, lavenders, black, white, etc.

Make Sudden Appearance

Impurities May Lurk in the Small Spaces For Months, or Years Waiting

The sudden appearence of some form of akin cruption calls for the immediate use of S. S., the famous blood purifier. People will wonder why, when apparently in the hest of health governily, the skin breaks out with unsightly eruptions. It is accounted for by the fact that deep in the interstees, the small lymofinite spaces, there are hidden away germs that have lain downant for weeks, perhaps years. Through some cause such as a cold, the system is in a low state of resistance and the germs then jump at the opportunity and some form of blood trouble makes its appearance.

If the mucous membranes are involved

the mucous membranes are involved

If the mucous membranes are involved we have colds, catarrh, broughtits, passimonts and so on if the general process of nutrition is disturbed we have rheumatism, indigestion, headsche and anestia. And when the skin breaks out it shows her impurities have affected the blood generally. Then is the time to attack discuss vigorously with S. S. S.

The action of this splendid purifier is a sweeping aid to the patural tendency of the body to rid tiself of all harmful genus. For if this were not true none of us would survice the second week of infancy. The course of S. B. S. leads through the vast network of lymphatic reins wherein germa are attacked and held down in the ting glands of the lymphatic system. Then there is the complex and extensive plan there is the complex and extensive plan | or chronic case.

of mucous membranes lining all the cave ties of the body. Herein is where poison-ous matter is prepared or converted into a substance to be readily eliminated by the mucous membranes of the lungs, liver, kidneys and bladder and by the skin, which is a modified form of mucous membrane. The well-known catalytic action of S. S. S. ughout the connective tissues brings into play all the forces of the body to check disease and replace with new tissue-building materials that which has broken down or has become infected by disease germs.

And what is of more than passing importance S. S. S. is a purely vegetable product, relatively as essential to well-busanced health if the blood is impure as substitution. Beware of all those harmful stuffs containing mercury, todide of pot-ash, arenic and other mineral poisons.

S. S. S. is prepared only in the labora-tory of The Swift Specific Co., 414 Swift Bldg., Atlanta, Ca. Write for a copy of a finely illustrated book on skin and blood troubles. When you purchase S. S.
